I'M NOT ABOUT TO GET IN YOUR WAY.

DON'T BE SO STIFF.

ARA?

YO, SUZU-NYAN!!

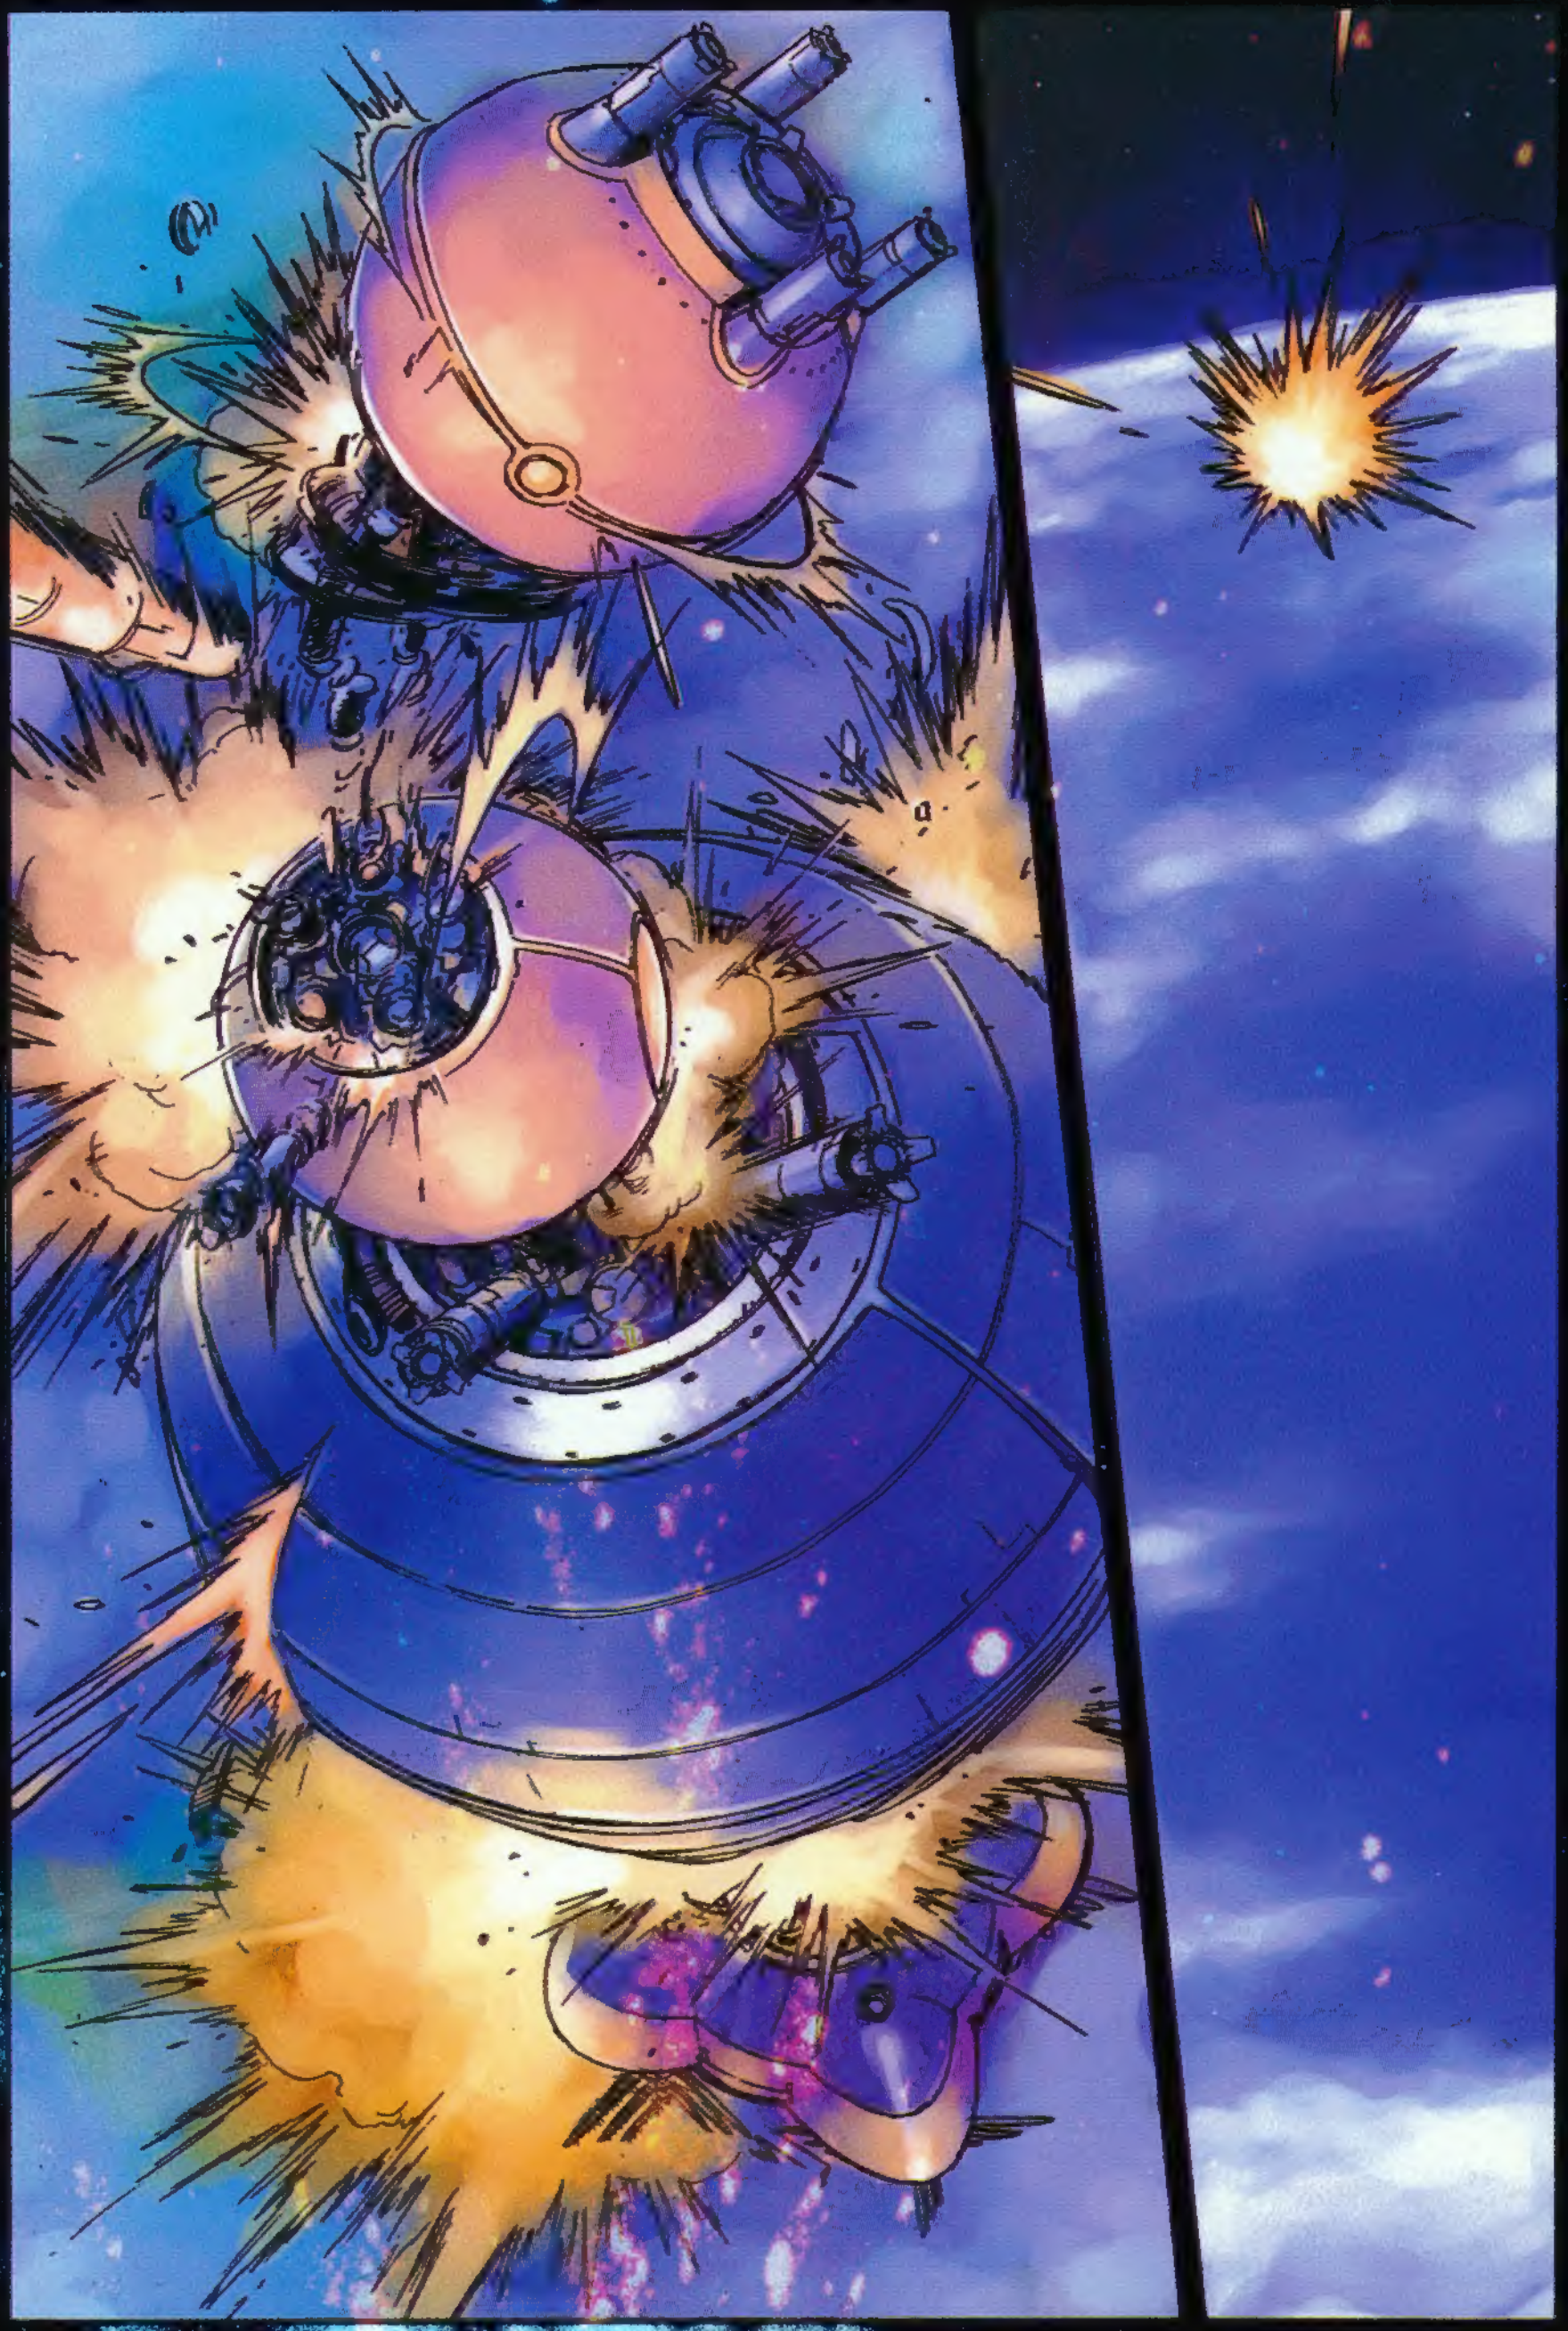
スタスタ

THIS AREA IS CLOSED OFF TO REGULAR PEOPLE.

LOOK, THEY'RE OVER THERE IN THE SOUTH.

FINE... THEN WOULD YOU LIKE TO WATCH THE FIREWORKS TOGETHER?

NYAHAHA, SOUNDS FUN.



A DEATH DROP... JUDGEMENT FOR THE PIRATES.

IN THE PAST, YOU USED TO SEE IT QUITE OFTEN.

SEE WHAT?

HRRRRM.

ARA, DELICIOUS.

MANJUU?

HERE, YOU WANT SOME?

Once the technique to sail ships developed,
people started to sail the unknown oceans.

During this era of great ships there came to be
many legends of adventure and pirates on
the seven seas.

Soon travel became easier and these legends
were mostly forgotten.

This era is...

"Toward Stars."

In this age known as the "Towards Star Era," legends of the law and the lawless are reborn.

The stories that once were lost are now spoken of again.

those very real ambitions vie against one another for any and every benefit and resource in the frontier lands.

Development by the corporations, trade among the many varying space civilizations, and the illegal activities of those seeking to circumvent them;

Just as sailors of yore once did, they regale each other with the tales of their exploits and adventures.

But in the bars on the remote edges of space, better folklore keeps the spirits high and the drinks flowing.

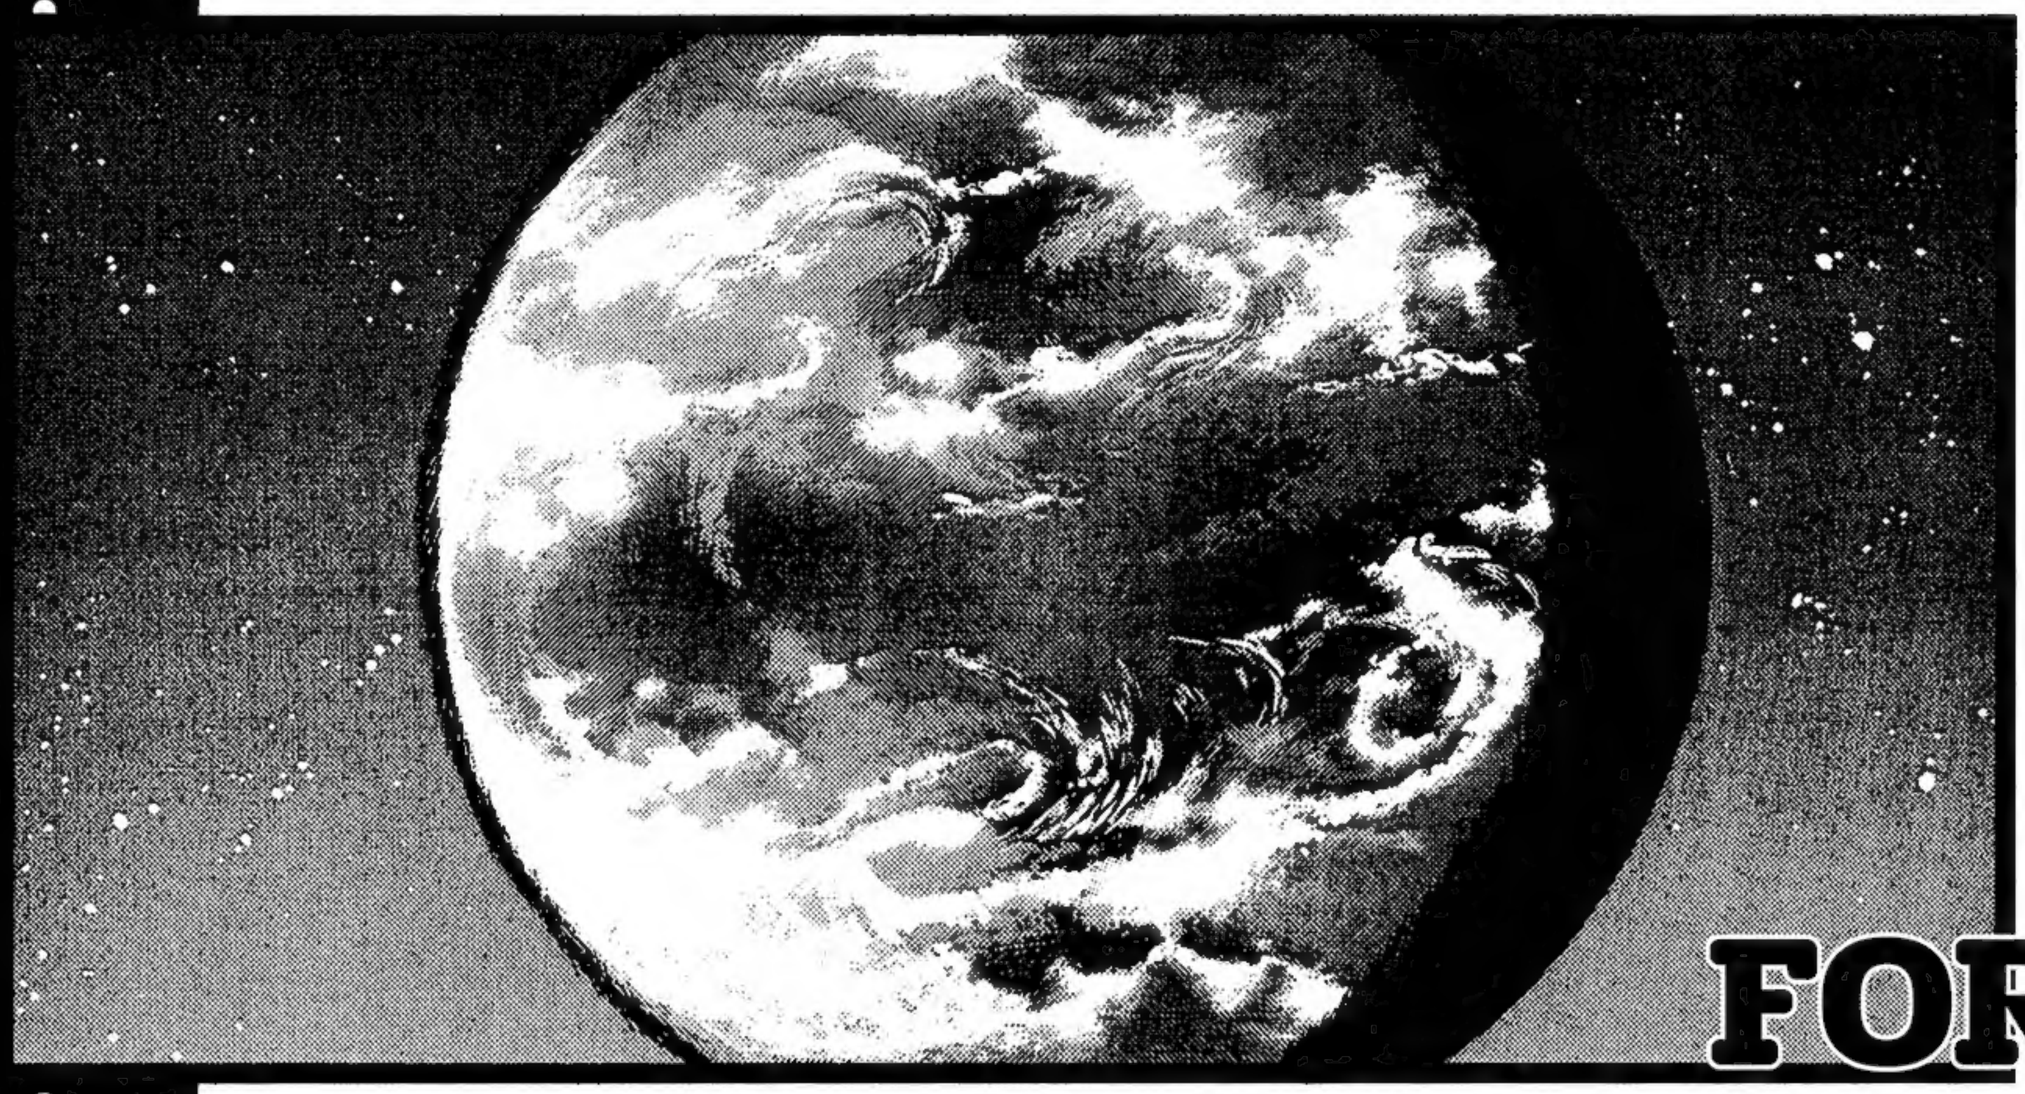
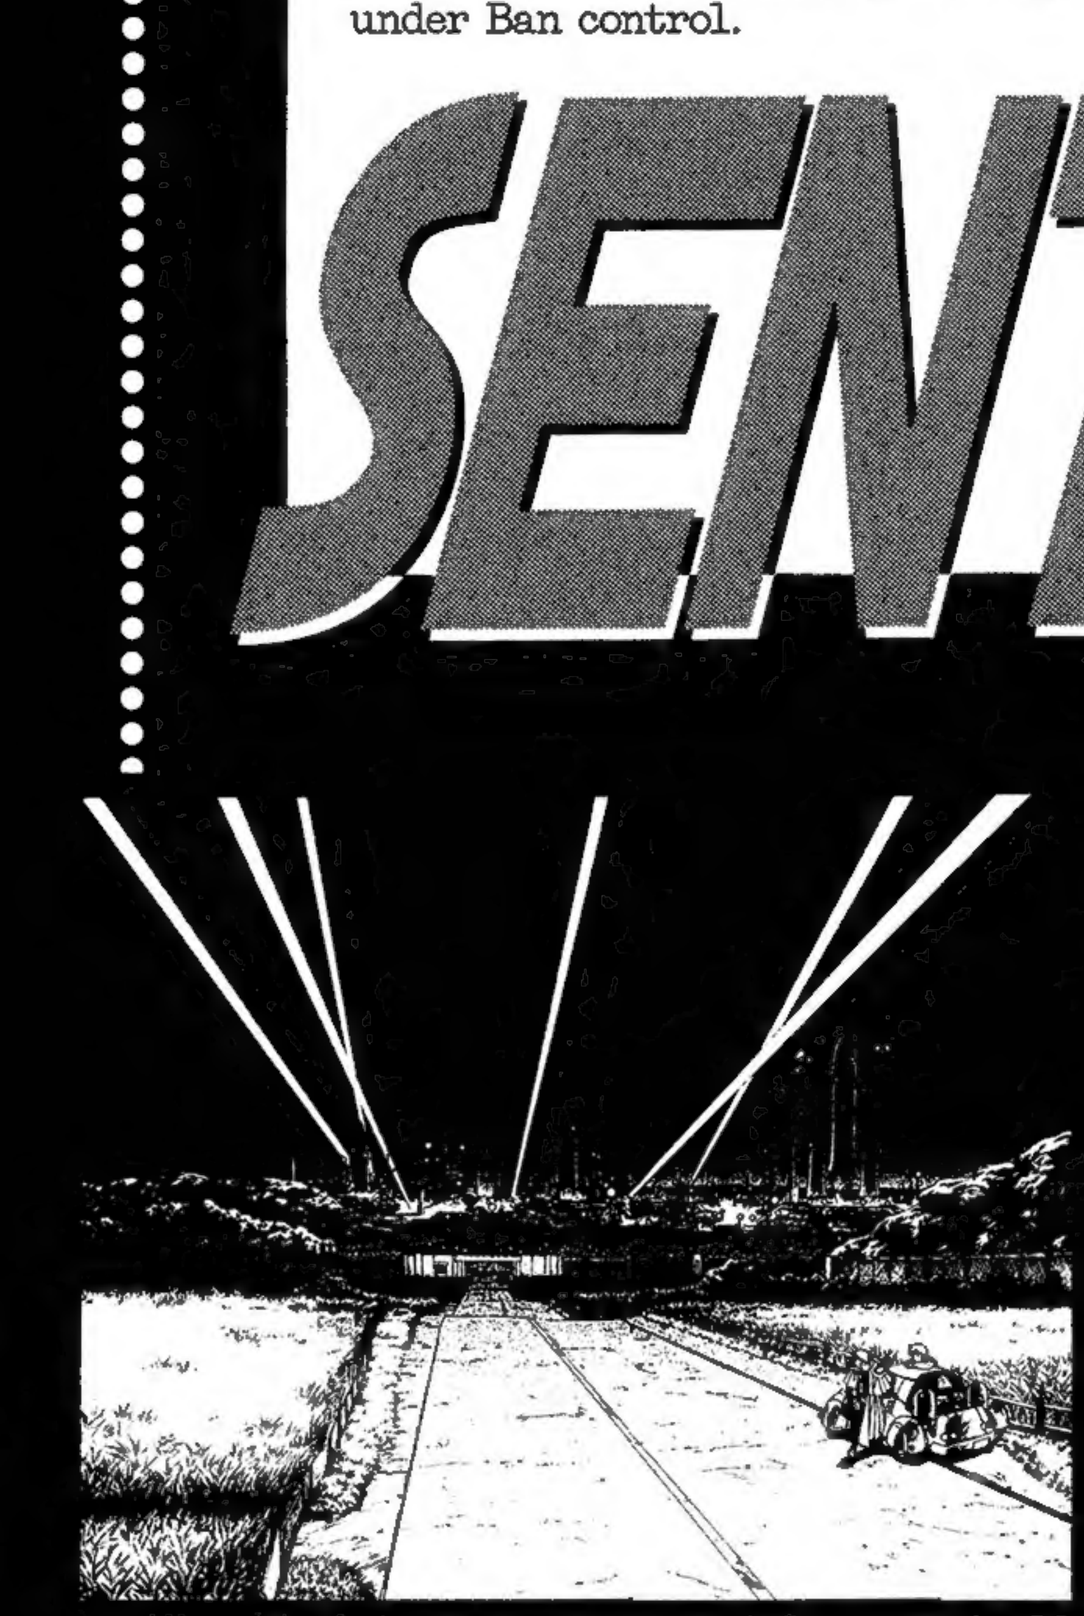
STAGE ★ INTRODUCTION



A STAGE FOR OUT LAWS

SENTINEL III



There are two spaceports, located at the cities of Hugo and Locus. Trade with major planets such as Heifong is brisk.

On the outskirts of the galaxy sits the third planet of the Sentinel star system. The total population is approximately 170 thousand. Agriculture and mining are the main industries on this backwater colony planet. However, the pirate Hilda blew in and encountered Gene here, so it's where our story begins. There is some dispute over mining rights to rare metals, so there are lot of scoundrels passing through, but the planet is essentially under Ban control.

Street scene with strong Chinese elements. Not an uncommon sight on this planet.

As is the case on many frontier planets, the police on Sentinel III are private. As such, they don't get involved in pirate disputes.
